

# Do Downturns Lead to Down Years?

YEAR-BY-YEAR RETURNS, WITH STEEPEST DECLINE WITHIN EACH YEAR

Russell 3000 Index, 2005–2024

Stock market declines over a few days or months may lead investors to anticipate a down year. But the US stock market has had positive annual returns in many years despite some notable dips.

- Intraday declines for the index ranged from 3% to 49%.
- Many years with large intraday declines saw positive annual returns.
- In 17 of the last 20 years, US stocks ended up with gains for the year.

*Tumbles may be scary, but they shouldn't be surprising. And a short-term slump needn't mean a full-year fall.*
